

Food and Climate Strategies

Bringing Livestock Out of the Shadows

Are you working on - or interested in - addressing **animal agriculture**'s role in climate change, whether from the production or consumption sides?

Join us for a networking and strategy session

Saturday, 11 November

12:00 -1:00 PM

ENGO Room (Meeting Room 5), Bonn Zone

Light lunch provided

RSVP by 9 November to ebiehl1@jhu.edu

We welcome people from different backgrounds and focus areas, including (but not limited to):

The Global South • Sustainable Diets • Indigenous peoples • Small farmers • Animal welfare • Land rights
Agroecology • Natural resources and biodiversity • Gender and youth constituencies • Public health • Fair food systems
